Winter Carnival Here, Huge Success

THE NEW CONTEMPRAPHONE

The newest design in telephones anywhere in the world is the Contempraphone, designed and produced for Bell Canada by Northern Electric. It's only available right here in the Haliburton Highlands. More than 100 of these telephones have already been installed. Except for London, Ontario, where it was marketed, nobody else in Ontario could get Contempraphones until February 2nd.

A special deal, however, was worked out so that customers in the Minden area could have them installed now as part of the dial changeover program and save an installation charge. As can be seen from the picture, the Contempraphone is new, sleek and has the dial set right in the receiver. The recall button is just below the dial. This brings you back a dial tone so you can make another call with the flick of a finger.

Contempra is available in any

of nine colors, at no extra cost: deep green, beige and ivory (the three old favorites), and six new ones: mauve, deep turquoise, deep blue, bright red, pale yellow and warm white.

Shown here are installer Mike Newell, Ev. Trepanier and Minerva Cassidy, getting a close look at the Contempra, which was being installed in the Pine Shop here in Minden last week.

Snow on ground Jan. 31, 1969	16"

The Tenth Annual Minden Winter Carnival is over — with it is the memory that it was the most successful one in the last decade. Thousands of people attended the three day event, watching some fine competition, and enjoying themselves in many of the winter activities.

Warden of the County Sinc Nesbitt officially opened this year's Carnival, with Carnival Chairman Reg Welch, Reeve Charles Brandon, MP Bill Scott, MPP Glen Hodgson, all taking part in the opening ceremonies.

The Sock Hop at the school was a big event, drawing some three hundred students and adults for the evening.

The Carnival Queen Contest had 19 entries, giving the judges some difficulty in choosing the Queen. When the judges came to a decision, it was Christine Swanton from Irontdale who was given the crown as the fairest of them all. Miss Swanton who works for LaNore Beauty Salon, won many gifts, along with a cash prize and trophy. Derenda Hewitt, placed second and Louise Pritchard was third, these two girls were the princesses for the weekend.

Parade

The parade was by far the best Winter Carnival Parade this community has witnessed.

Minto Marine took first prize, Cox's Apparel was second, I.G.A. Store was third. The Minden Public School took the best girls entry, while the Minden Mites hockey team won for the best boys entry.

Broomball

The broomball competition was keen throughout the weekend with some eight teams entered. The Beaverton entry was the final winner with a 2 - 1 win over one of the Minden entries.

Beaver Skinning

The Beaver Skinning drew a large crowd this year with some real experts doing the skinning. Hugh Austin was the first place winner with Ron Graham and Will Ackerblade placing in a dead heat for second. All the winners were from Minden.

Ice Sculpturing

There were many good ice sculptures in the community for the Carnival. Winning the prizes for the best efforts was the

sculpture made by Harold Morgan Jr. and Dean Minto. In second place Tom Farmer won for his located at the Department of Lands and Forests. Winning 3rd. prize was the one made by the Les Northey family.

Fish Derby

The fish derby had plenty of entries but the fish caught on the Carnival weekend were a little smaller than those caught last year. The winner was Clarence Precoor with a 5½ lb. Lake Trout. Second was John Swann with a 4½ pound Laker and in third position was Wayne Moxam with a 4 pound Laker. All the winners are from Minden.

Log Saw

The log sawing contest was somewhat different this year, all contestants used chain saws. Winning first was Lloyd Cornell of RR 2 Lindsay. Allen Cooper of Minden was second and Ian Cooper was third.

Curling

The Hiram Walker Bonspiel at the Minden Curling Club drew plenty of interest over the weekend with 16 teams entered for the Hiram Walker Trophy and silver pitcher and serving tray, donated by Hiram Walker.

The team of Roy Windover, Marg Windover, of Minden and

Gerald Dawson, Barb Dawson of Haliburton were the winners of the Bonspiel. The second place winners were skipped by Percy Brintnell, third team skipped by Dwight Thomas. Jim Blackwell, and team from Toronto took fourth place, while Andy McNab of Kinmount was fifth and Al Brown of Kinmount was sixth.

Bowling

There was plenty of action at the bowling lanes both here and in Carnarvon. Teams were entered from 8 different locations. In the men's team play it was C. McLeish of Lindsay with 3493. Second was R. Robinson of Minden with 3402 and third was W. Goodman of Bancroft with 3363. In the Men's Doubles it was Ron Robinson and his son Ron of Minden with 1647. Second was C. McLeish and N. Darby of Lindsay with 1500. In third place was B. Beard and S. Barton of Fenelon Falls with 1457. Men's Singles were E. Quibell of Lindsay first, Ron Robinson of Minden Second, D. Robinson of Minden third.

Ladies Doubles were won by N. Donalco and S. Hughes of Minden. Ladies Singles were won by A. Fountain of Maple Lake, first and N. Donalco of

HERE AND THERE

with Fenwick Finch

There is a letter from Don Macnab in another section of the paper well worth reading. He mentions the corner at the bridge as being a danger spot and he's quite right. It has been a wonder

to me for some time why there hasn't been a serious accident at this spot. Maybe the idea is to wait until something serious happens — then, do something about it.

.....

I see by the news the other night that Paul Prentice finished second in that race from Pembroke over the weekend. The race finished in Haliburton. Good for Paul — this young fellow and his Ski-Doo have done more to advertise the Haliburton Highlands than any advertising programme has come up with. He'll soon need another room in the house to hold his trophies.

.....

"The Man from Esso," Jack Austin has done it again. Jack has received a trip to the Bahamas in the near future and one hundred bucks to throw around. He got this for having the most efficient Service Station and his good customer relations.

For some time now, Jack has owed me a trip to "Howland Junction" but has always "weasled" out of it. Since he has won some money at Bingo a couple times and has come up with this new win — I can't see that he can hold out much of an excuse for fulfilling his "Howland" obligation.

The good Dr. Koval told me I should get away for a change of scenery to help me recover and I think this trip to Howland would be the answer.

.....

In the last issue of the "Hydroscope" one of the official news organs of the Ontario Hydro a nice letter from Murray Dobson, President of the Big Bob Lake Cottagers' Association, commends the Minden Area Forestry Crews, under Wally Cooke, foreman, for their "careful and co-operative" brushing out and the interest they have shown in protecting the trees.

This makes a change — the general public is always quick to condemn but not to quick to commend — of course, this is human nature.

.....

I see that the owners of colour television have something more to worry about. The Government is considering putting colour TV sets under the "Hazardous Products Act."

To protect yourself from the harmful radiation they suggest you sit no less than ten feet from the set and wear a rubber apron — what next?

Had an item here I was going to use just before going into the Hospital. It may not be news but here goes. It concerns two former Minden residents David and Faye Sawyer and took place in their home at Dresden. It seems there was a shooting down the street from the Sawyer residence and the chap who did the shooting forced his way into the Sawyer home and held them at gun-point for almost half an hour. That was the length of time it took David to talk him into handing over the gun and turning himself in. Dave is quite a charmer when he goes into action. This fellow was lucky that he wasn't the proud owner of a couple of insurance policies as well when he left the Sawyer home.

.....

So much for this week — drive carefully, the winter is almost over, the best is yet to come — be around to enjoy it — I know you'll appreciate the living as I do.

HIGH SCHOOL TO HOLD ANNUAL MIXED SPIEL

On Saturday, February 7, Haliburton Highlands Secondary School Curling Club will be holding their annual mixed spiel at the Haliburton Curling Club in Haliburton. This spiel is open to High School Students only.

In keeping with the theme of developing junior curling, the spiel will be held not only to provide good, sporting competition, but also to foster the growth of high school curling.

Entries will be drawn from a large area. Teams will be present from Burlington, Dundas, Newmarket, Fenelon Falls, Bancroft, Tweed, Keene, Gravenhurst, Orillia, Bracebridge, Whitby, C.F.B. Borden, and Brockville.

LETTERS TO THE EDITOR

January 30th., 1970

Red Umbrella Inn
Minden, Ont.

Mr. Fenwick Finch,

Glad to see you are back on the job. I note you start off by throwing accolades to Dr. Koval, which he so richly deserves, and may I join your club as a booster of this extremely well qualified M.D.

However — take warning! Any time now, the dear Doctor will drop into your house, remove your car keys, and tell you that he wants you to jog to work and back. Don't be too disappointed with this therapy, because unless you have a good hiding place, he will be back in two or three weeks. NOT TO RETURN YOUR KEYS, but to tell you that you are now in shape to jog to Carnarvon and back — and if your wife is anything like mine, she'll have you entered in the Woodbine Trots come Spring.

In all seriousness, Dr. Koval is a great guy — if only he could play golf or table tennis he'd be perfect.

With regard to your campaign on safety, I hope you can bring to the attention of the Town Fathers or the local Police Department the fact that a flasher light is needed under the stop sign at the south end of Minden bridge. I don't know the reason whether it is because there is no stop sign at the other end of the bridge, or whether it is a colour block, or if the sign is minimized by buildings, but I do know that so many people do not see it and I am afraid I have been guilty on a couple of occasions of not realizing it is there.

As you know, there is electricity on the bridge, and you as a Hydro expert, could no doubt come up with a figure of probably under \$5.00 a year for a flasher stop light.

Must go now as I still have three more miles to do.

Your Happy Jogger,
A. Don Macnab.

FINANCIAL AID TO DYSART FOR INDUSTRY

The Village of Haliburton and the township of Dysart has been approved by the Ontario Development Corporation for registration as an area in which new or expanded industry may be considered for financial assistance under the Ontario equalization of industrial opportunity program.

In a letter to the municipality, assistant secretary R. H. Ribbans said the registration, effective immediately, will be kept under continuous review, but in any event will lapse on June 30, 1971.

The municipality were informed they may apply just prior to the lapsing date for relisting and the municipality will be re-assessed on the basis of circumstances existing as of that date.

ANNOUNCE FINAL PLANS FOR TOURIST WORKSHOP

Final arrangements have been announced for a one day workshop seminar for region tourist operators, to be held February 18 at Sir Sandford Fleming College.

"Planning for profits" will be the first topic, and discussions will be conducted by Sir Sandford's business division Chairman Gordon Dagg, C.A., and Donald Sheppard, R.I.A., a College faculty member.

They will look at the effect of the new tax structure on tourist operators, discuss financial techniques for increasing profits, and follow up with case studies illustrating these techniques.

Current ideas in promotion and advertising for tourism will be discussed by John Holden, of the Ontario Department of Tourism. The case method will be used here, as well.

Personal operating problems not covered by the formal sessions will be discussed in the final part of the workshop, and questions left unanswered will be referred to resource members for suggestions.

The workshop is sponsored by the College, the Kawartha Tourist Association and the Ontario Department of Tourism, and is open to all operators in Haliburton, Peterborough, Victoria and Western Northumberland counties.

Emphasis is on practical information that will be of direct use to workshop members.

The cases will be built on real situations, written without identifying the individuals, and will cover many different types of resort business.

CONGRATULATIONS

Congratulations are in order to Carnival Chairman Reg Welch and his Committee for the best Winter Carnival Minden has had in its ten year history.

The Carnival does more for the people in Minden than most realize. It not only fosters more business, but draws the people of the community and visitors together, in fun filled winter recreation. This years Carnival was filled with high spirited friendship and good sportsmanship was shown in all competition.

The business people can be thanked also for their contributions, both in cash and merchandise. The parade was one of the best at Winter Carnival time, and here again a vote of thanks should go to those who entered. Carnival Parade Gene Whitney did a fine job, and got the cooperation needed to make such an event come off in first class style.

I am sure this years success will give next years Carnival Committee something to shoot for.

Once again Congratulations for a job well done.

ABOUT SNOWMOBILING

Here are some interesting facts about the snowmobile craze which has hit Ontario, from the Ontario Safety League.

There are over 100,000 snowmobiles being used in Ontario at the present time by approximately a quarter of a million people; this is about one-sixteenth of the total population of the Province.

Snowmobiling is a billion dollar business. It has opened up the vacation lands, such as we have here in the Highlands, for year-round use and given the resort areas a greatly needed economic lift.

Members of the Ontario Safety League staff have been using, testing and experimenting with various makes and models of snowmobiles for the last eight years. It has been found that these motorized snow vehicles perform well when operated on snow. Under these conditions they are easily controlled, reliable and seldom break down if properly maintained and operated. On hard-packed snow or ice, such as well-travelled roadways, a snowmobile is practically unmanageable at any speed. For proper propulsion, braking and steering, the track and skis of a snowmobile must have snow to bite into.

To date, there have been 17 snowmobile deaths in Ontario to the knowledge of the Safety League. Fifteen of these fatal accidents occurred on public thoroughfares, thirteen of them involving collision with motor vehicles. The Ontario record reflects that of other provinces in Canada in proportion to the number of units in use. It is the highest fatality rate of any recreational activity in the world.

The Ontario Safety League appeals to everyone interested in snowmobiling; provincial and municipal governments, snowmobile manufacturers, clubs and individual users to take a long, sane look at the above facts; then decide what must be done to stop these needless snowmobile deaths and promote the healthy growth of this valuable recreation.

How to keep
the traffic moving
when rush hour hits
the hot water.

Rush hour. Every family has one. When there are dishes to be washed, kids to be tubbed, Dad scrubbing up. Then Sis decides she *has* to have a shower. It takes a lot of hot water to keep the traffic moving.

That's why you need the Cascade electric water heater—the big producer. It's got the capacity a busy family needs, and it's economical, too. Cascade keeps you in hot water for only pennies a day. Ask your Hydro about the quiet, clean, electric Cascade water heater.

Cascade

**KINSMEN MARATHON
DRAW WINNERS**

The following is a list of winners in the Kinsmen Marathon Draw for the months of November, December and January.

November — \$100.00 draw, Morris Stamp, Haliburton. \$0.00 draw, E. L. McCarey, Minden. \$50.00 draw, George Campbell, Lindsay.

December — \$100.00 draw Jack Austin, Minden. \$50.00 draw Jerry McKelvey, Minden. \$50.00 draw, Jean Garishore, Minden.

January — \$100.00 draw, Moy-er Hewitt, Minden. \$50.00 draw Marie Baker, Lochlin. \$50.00 draw Bryan Crarey, Minden.

DOLLARS AND GOOD SENSE

by William J. Martin

Dear Mr. Martin:

We have to replace our refrigerator soon and are in the process of shopping around for a new one. Do you have any tips on what to look for in a new model and also how long should we pay on it?

Mrs. D. F.

Let me answer the latter part of your question first — "how long should the instalment contract run?" The rule for major electrical appliances is about twenty-four months, but since the refrigerator is probably the most expensive electrical appliance you have in your house, you

could extend the contract to about 30 months.

In connection with the length of instalment contracts, you might also be interested in the following as a guide for the purchase of other items:

1. Furniture — between one year and 18 months.
2. Jewelry — Generally 12 months is the limit.
3. Television — About 18 months.
4. Automobile — Usually 30 to 36 months.

Remember, though, that you should never really stretch yourself to the limit. The instalment contract that is paid off conveniently leaves more satisfaction behind it than one that becomes burdensome before the last payment is due. Generally, though, you should not still be making payments on a purchase or a loan long after it has ceased to benefit you.

So far as selecting a model to fit your needs, it's very difficult to advise you. I can only tell you that you could consider the size of your family in relation to the size of the unit you intend to buy. The best advice I could give you is to discuss this with the appliance people at your department or appliance store.

Certainly, you will want to consider such things as adequate freezer space and automatic defroster. An automatic element is a very convenient item to have, but remember that it will cost you about \$75 more than a non-automatic model. Remember, too, that operation costs (electricity) will be about doubled.

If your old refrigerator is still in pretty good condition you might want to keep it for additional storage and freezer space. You won't get much (if anything) with it as a trade-in, but it will provide you some savings when you shop for meat and other items on sale which may be frozen.

When you do decide to buy the model that best suits your needs, be sure and read the instalment contract very carefully. Be certain you understand everything in it, including all guarantees and warranties. Then, meet your payments promptly; take good care of the product until at least you have paid in full for it; and notify the store or lender when you change your address.

TODAY'S CHILD

BY HELEN ALLEN

Toronto Telegram Syndicate

Looking at you with his contagious smile is Tim, 15 months old. Anglo-Saxon in background, he is a real tow-head with big blue eyes and very fair skin. He has always been in good health except for a few colds.

Tim looks chubby in his picture but is slim, wiry and very active. He can walk and climb all over the furniture but when he's really in a hurry crawling is faster. He is a happy, easy-going baby, developing normally.

Tim loves other children but can be contented if he has to play alone. He is responsive to music which sets him dancing.

This little boy needs parents who will not worry over mental illness in his father's family. To inquire about adopting Tim please write to Today's Child, Department of Social and Family Services, Parliament Buildings, Toronto 182. For general adoption information ask your Children's Aid Society.

Farquharson & Wright,
their Solicitors herein.

COMING EVENTS

Pancake Supper at St. Paul's Church Tuesday, February 10, from 5.30 on. Admission 75c.

SLEDDING "MORE DANGEROUS THAN SKIING"

In his recent review of the American Medical Association's annual convention, John Shaughnessy of the Medical Post reports that although we don't have statistics to substantiate it per person, sledding carries with it a significantly greater risk of injury than does skiing.

Last year most of the injuries occurred in unsupervised areas where the terrain was unknown. Frequently people injured in these areas had no instruction or knowledge of how to use the devices they were riding.

Another overall important factor in sledding injuries was the number of individuals on the sledding device in relationship to its size. Often people tend to overload the snow saucer or sled and it is practically impossible for all the passengers to keep their legs and feet on the device. When sleds are overloaded, they are difficult to control and steer. The posture of the rider using the various types of sleds is also important, the proper way to ride is sitting up, not kneeling, standing or laying prone. If the hazards and risks associated with this sport are to be lessened, more established runs, maintained and supervised by adequately trained personnel, must be made available to the public. There is also a need for much safer equipment and toboggans must be padded with a cushion at least four inches thick to prevent spinal injuries.

LAKE OF BAYS CALLING

By Ross Leslie

You may want to hear "Lake of Bays Calling" - a little quickie show series that I host and produce. It usually features news or information of Lake of Bays, and sometimes brief guest shots by persons like Dan Watson, Jason Farlam and even Al Greir. Tune in around 2.30 on Saturday and Sunday afternoons to CKTB, St. Catharines, dial 610 CKTB's production manager, Bob Johnston, writes a column called "Bob's Radio Revue," in the St. Catharines Standard. Interestingly enough, both our Lake of Bays News and the St. Catharines Standard carry a calendar on the front page two of the very few newspapers in the world to do so. Did you know that there is only one U.S. daily that does not carry comic strips - The New York Times. For more dope on this renowned rag read the Kingdom and the Power (World Publishing). I procured my copy through The Book Shelf, 54 Maple Ave, Barrie, by mail - so can you. Although the hardcover version requires that you cough up quite a bit of bread, it's a well-recommended work.

Last week's warm spell brought with it perfect television reception for me and I was able to eye closely my favourite daytime show - The Edge of Night. The mad killer, Mrs. Martin was still stalking Nicole Travis and appearing to be also considering to bump off sweet Ron Christopher. Nicole must have a cat's nine lives - a bullet missed her, a car missed her, etc. On Friday, Mrs. Martin dumped enough poison into Nicole's booze to kill a couple of elephants. And still Nicole lives! As does her father, ex U.S. Senator Ben Travis - he's up the river - for loan-sharking and murder.

It's too bad that practically all of radio's soap operas have long since kicked the dust. Remem-

ber Maw Perkins, Helen Trent, Stella Dallas, Myrt and Marge, and Betty and Bob? Pierre Anore was reputed to be the first soap opera announcer. Of radio soap operas, James Thurber once wrote, "... is a kind of sandwich, whose recipe is simple enough, although it took years to compound. Between thick slices of advertising spread twelve minutes of dialogue, add predication, villainy, and a female suffering in equal measure, throw in equal measure, throw in a dash of nobility, sprinkle with tears, season with organ music, cover with a rich announcer sauce, and serve five times a week." Confidentially, I'd like to be a radio soap opera announcer.

It's too bad that Dorset's booze store is closed in the winter. Do you suppose that politics has something to do with this situation?

Miss Crystal Ball is predicting a pretty fair summer tourist season here, this year - despite tight money and Expo 70, etc. We may publish the reactions of our locals who visit Expo 70, in The Lake of Bays News, this summer - should be interesting stuff.

Last summer, because of space limitations, many advertisers could not buy space in The Lake of Bays News - if you want to climb aboard the bandwagon, book soon - contact Al Greir or myself. For a mail subscription to anywhere in North America via first class mail, the charge is one dollar.

That's "30" for this occasion - we'll do this again sometime.
